

Virtual Driver Interactive Significantly Expands Products Offered in General Services Administration (GSA) Contract

Newest driver training/safety systems are available to federal government agencies

El Dorado Hills, Calif.—January 23, 2018—[Virtual Driver Interactive \(VDI\)](#), the leading provider of simulation-based driver training solutions, today announced it has significantly increased its product portfolio offered in the GSA contract, an agency devoted to the efficient acquisition of products and services for the United States Federal Government.

Under the augmented contract, government agencies will be now also be able to procure VDI's award-winning boating skills trainer, new 34"screen simulation systems, a three screen full cab simulator and the latest *Driving Essentials* driver safety training program. By accessing the [GSA Advantage website](#), each new item can be easily purchased at a cost effective price. The GSA contract simplifies government agencies' access to products by eliminating exhaustive competitive pricing and contracting procedures, allowing vendors to focus their efforts on providing customers with the best solutions.

“By increasing the products included in our GSA contract, we now offer all branches of the federal government not only a streamlined buying process but also our latest simulation-based driver safety technology,” said CEO and President of VDI, Bob Davis.

VDI's contract number is **GS-02F-0122W** and is listed under the category - Mission Oriented Business Integrated Services (MOBIS). The contract will remain in effect until February 18, 2020 with additional five-year extensions possible.

About GSA

GSA's acquisition solutions offer private sector professional services, equipment, supplies, telecommunications, and information technology to government organizations and the military. GSA policies promote management best practices and efficient government operations.

About Virtual Driver Interactive

Virtual Driver Interactive is well known for its innovative simulation-based training. From training corporate fleets to new teen drivers, VDI delivers effective training. VDI offers highly portable, affordable and effective solutions. Titles include Virtual HD® (Virtual Hazard Detection), designed specifically for corporate fleets; One Simple Decision®, a deterrent to distracted or impaired driving; Virtual DE™ (Virtual Driving Essentials), a driver training and assessment program teaching critical skills; and Boating Skills VT™ (Boating Skills Virtual Trainer), industry's leading simulation-based boating safety program.
